Grim Grip's Deadly March

Deals Death and Destruction to Many

Boston, New York, Philadelphia, Wash-
ington, Louisville, etc., are the
Scourge. All the Great Centers
of Population Affected.

The depressing effects of the pres-
ent epidemic of Grip are apparent
everywhere. Teachers, clerks, busi-
ness men, mechanics, laborers, street
car drivers, school children, police
officers and even the doctors all fall
victims by the hundreds.

No remedy yet discovered can show
results equal to Dr. Miles' Restora-
tive Nervine. It quickly overcomes
the excessive exhaustion, invigorates
the appetite and assist nature to
throw off the deadly microbes from
the system. In times of epidemic like
the present it should be taken as a
preventive of disease.

"Grip had left me a physical wreck;
weak, helpless and miserable. I could
not eat; could not sleep; could not gain
any strength, and had nervous prostra-
tion of the worst kind. Our home
physician could not help me and I
commenced using Dr. Miles' Nervine.
The first night's sleep that I had had
in four months came as the result of
two first doses. When I had taken
two bottles I felt better than I had
before in years, and continued to im-
prove until I was entirely cured."

THE FIRST BATTLE

Insurgents Attacked United
States Troops on Orders
from Agoncillo.

DISPATCH FROM GEN. OTIS

Agoncillo's Telegram Received at
Hong Kong and Mailed to Malolos.
Insurgents Reported Gathering
North of Manila—Lesson Given Na-
tives Has Not Had Effect Expected.

Washington, Feb. 13.—A dispatch
from General Otis received at the war
department this morning says he has
been informed that the attack made on
the American forces by the rebels was
in pursuance of advice received by
Agoncillo from Hong Kong. The fol-
lowing is General Otis' dispatch:

"Reported that insurgent representa-
tive at Washington telegraphed Agon-
cillo to drive out Americans before ar-
rival reinforcements. Dispatch received
at Hong Kong and mailed to Malolos,
which decided on attack to be made
about 7th inst. Eagerness of insurgent
troops for an engagement precipitated
battle. Very quiet today on lines from
Caloocan on north to Pansay on south.
Yesterday small reconnoitering party
12 miles south city fired on two men,
slightly wounded. Two insurgents with
arms captured. Affair of 10th, McAr-
thur's division, very successful. Enemy's
loss considerable; have collected 70 dead
bodies; more not yet discovered. In-
surgents reported to be gathering force
12 miles north on railway, but evidently
perplexed."

FAIR FROM SOLUTION
Terrible Lesson Inflicted on the Philip-
pines Not Being Heeded.

Manila, Feb. 13.—Contrary to ex-
pectations was quiet about the entire
line yesterday. In Manila the inhabi-
tants have generally recovered from the
alarm occasioned by the fear of a native
uprising and are resuming their ordi-
nary business. The shipping interests
are naturally suffering, since there have
been no clearances for Philippine ports
for a week, but on the other hand, for-
eign shipping has increased, especially
for Hong Kong, every steamer bound
thither being crowded with timid refu-
gees.

"Despite this quietude, however, many
are asking whether the problem is not
still far from solution. A week ago those
who took an optimistic view predicted
that the terrible lesson just administered
to the rebels would settle the question
of Filipino independence in short order.
But this prediction has not been ful-
filled."

As a matter of fact, the rebels are now
scattered throughout the country bush-
wacking, except at Malabon, where they
are gathered in force. Even there their
methods savor more of guerilla than of
civilized warfare—every bush, clump of
trees and tree furnishing a cover for
their sharpshooters.

Unfortunately, for miles around the
land is studded with bamboo jungle and
open spaces are few and far between.
This affords the natives, which fight
better under cover, a distinct advantage.
In many places the jungle is so dense
that the eye cannot penetrate it, and
only by the flashes of their rifles is the
whereabouts of the enemy indicated.

Under such conditions it is remarka-
ble that the American casualties should
be so few, while the number of dead na-
tives found in the brush after every
skirmish testifies to the precision of our
fire. Last week there was not a single
day without fighting, but the Americans
steadily advanced, carrying everything

The eyes, the hair and the carriage will tell
the story when a woman is ailing. It is
impossible for a woman to be in good
general health when some local trouble is
continually nagging at her nerves and dis-
turb the natural functions of every organ
of the body. Dr. Pierce's Favorite Prescrip-
tion is the best of all medicines for
women who suffer from local weakness
and disease peculiar to their sex. It acts
directly on the delicate and important
organs concerned. It makes them strong,
healthy, vigorous and elastic. It allays
irritation, heals ulceration, soothes pain,
tonifies and builds up the nerves and ban-
ishes the usual discomforts of the expectant
months. It makes baby's advent easy
and almost painless. It enables every
organ of the body to perform its natural
functions without unnatural interference
from a pain-tortured nervous system. It
corrects all irregularities. A woman who
is made well in this way will recover her
natural beauty of form and feature and her
natural amiability of character and temper.
Thousands of women have testified to its
merits. An honest dealer will not urge a
substitute for a little extra profit.
Mrs. Rachel Clark, of Houston, St. Cr. & Co.,
Wis., writes: "I am in good health since I
have taken Dr. Pierce's Favorite Prescription.
I gave birth to a 12½ pound boy last June. He
is six months old now and weighs 30 pounds."
How to preserve health and beauty are
told in Dr. Pierce's Common Sense Medical
Adviser. It is free. For a paper cov-
ered copy send 21 one-cent stamps, to cover

before them and gradually increasing
their semicircle, until now it spreads
fan-shaped from four to 10 miles around
Manila, the waterworks being the most
distant point.

It is now known that the Filipino loss
is fully 2,500 killed, with wounded vast-
ly in excess of that number, and thou-
sands are held prisoners. All this has
been achieved at the cost of 65 Ameri-
cans killed and 257 wounded. There are
two Americans missing and unac-
counted for.

No fewer than 10 of the native vil-
lages have surrendered or been captured.
Several have been destroyed because
their houses harbored men, frequently
disguised in female attire, who shot
from windows and roof tops at the
American troops. Many rifles and a ton
of ammunition have been seized. As
might be expected, there has been looting
in the outskirts, but it has not been
general and has been done in direct vi-
olation of orders.

The only incident that has broken the
quiet of the day followed the arrival of
the German first-class cruiser Kaiserin
Augusta. When she saluted Admiral
Dewey yesterday afternoon a report
spread rapidly that the American war-
ships were bombarding Malabon. Yes-
terday crowds visited the scenes of last
week's fighting. All the roads from the
city were thronged with vehicles, but
beyond burned villages and the new
mounds there was little to be seen.

A close inspection showed that most
of the enemy's dead had remained at
their posts to the last, as the bodies were
usually surrounded by empty cartridges,
while in the trenches, wherever there
was no dead, there was little and often
no ammunition.

Among the distinguished prisoners
captured in Manila since the outbreak
of hostilities are: Captain A. G. Escar-
millo, Agoncillo's private secretary;
Captain E. B. Vergara, Colonel Martin
De Los Reyes and Senor Tomas Del

Bosario, a member of the so-called Philip-
pino congress in session at Malolos. A
few minor Filipino officials are also in
custody.

MALABON

Captured by the Americans—Monad-
nock and Charleston in Action.

Manila, Feb. 13.—Malabon was taken
by the American forces Saturday, and
the Filipinos have been driven further
to the north. The town was fired by
the natives when they evacuated the
place, but the blaze was soon extin-
guished by the Americans. Private
Harry McClure of the First Idaho was
killed, and six others wounded.

The place was shelled by the Monad-
nock and the Charleston. The loss to
the natives is believed to have been con-
siderable. It is the intention to press on
to Malolos, the seat of the Filipino gov-
ernment, and take that place. Agon-
cillo is believed to have fled in that di-
rection, and he will be taken prisoner if
possible.

Enroute For the Philippines.

Columbus, Feb. 13.—The last bat-
talion of the Seventeenth United States
infantry, comprising Companies A, C, E
and F, under command of Major
O'Brien, left last evening for New York
enroute to the Philippines. The bat-
talion was accompanied by the band and
headquarters' staff. The intense cold
prevented a large public demonstration.
The regiment left about 40 sick men at
the Columbus post.

SNOWSLIDE.

In Which Twenty-four Lives Are Sup-
posed to Be Lost.

Georgetown, Colo., Feb. 13.—In a
snowslide at Silver Plume yesterday 24
lives are believed to have been lost.
The dead are Italian miners with their
families. Eleven bodies have been re-
covered, only two of which have been
identified.

The slide was the most disastrous ever
known in Clear Creek country. Starting
two miles from camp the avalanche
came with terrific force, carrying with
it huge boulders and immense trees.
A short distance from the starting
point the avalanche parted, one section
coming from Cherokee gulch, taking
with it the cabins occupied by Italians
and shaft house of the Carey City mine.
The other slide came down William
gulch between Pilecan and Seventy-
nines. This portion of the slide did
the most damage. Settlements of
miners, mostly Italians, were situated
in both gulches.

TUBERCULOSIS

International Congress to Discuss
Means of Prevention.

Berlin, Feb. 13.—A committee rep-
resenting the international congress for
the prevention of tuberculosis, which
will sit in Berlin from May 24 to May 27
next under the patronage of Empress
Augusta Victoria and the honorary
presidency of the imperial chancellor,
Prince Von Hohenlohe, called at the
United States embassy to enlist Ameri-
can interest and co-operation in the un-
dertaking.

Dr. C. W. Stiles, scientific attache to
the United States embassy, is preparing
a report for the medical press on the
purpose and scope of the congress, whose
main object is to devise ways and
means of combating tuberculosis, es-
pecially as a popular scourge. Emperor
William will entertain the members of
the congress.

\$250,000 Blaze.

New York, Feb. 13.—The factory
building of the Manhattan Brass Co., on
26th street, was destroyed by fire yes-
terday, together with a large quantity
of valuable stock of finished material and
machinery. The estimated loss is \$250,-
000.

Heavy Gale.

London, Feb. 13.—A heavy gale swept
the British islands Saturday and con-
tinued yesterday, causing floods at many
points. Rivers have overflowed their
banks; railways have been submerged
and there have been numerous casualties
along the coast.

WAR INVESTIGATION

Voluminous Report of the
Commission Is Made
Public.

GENERAL NELSON A. MILES

His Failure to Report on the Beef
Furnished the Army Designated a
Dereliction of Duty—Dr. Daly Also
Criticized—Beef Pronounced Good
by the Investigators.

Washington, Feb. 13.—The report sub-
mitted to the president last Wednesday
by the commission appointed by him to
investigate the conduct of the war de-
partment in the war with Spain was
made public last night. The report is
an unanimous one, all the members of
the commission having signed it except
Colonel Sexton, whose death occurred
Feb. 4.

The report is a voluminous document,
containing about 65,000 words, and an
official abstract, prepared by the secre-
tary of the commission, was furnished
to the press for its convenience. Re-
garding alleged embalmed beef, the re-
port says in part:

"On December 21 last, Major General
Nelson A. Miles, upon the written re-
quest of the president of this commis-
sion appeared before it. He refused to
be sworn, as all other witnesses had
been except one, who affirmed, stating
that he would make his statement with-
out being sworn and was responsible
for what he said. He proceeded, and
for the first time in the history of this
investigation the allegation was made
that refrigerator beef issued to the
troops had been chemically treated."

"In the statement, revised by himself,
General Miles said:

"There was sent to Porto Rico 337
tons of what is known as so-called re-
frigerated beef, which you might call
embalmed beef." * * * * *

"He proceeded to read a communica-
tion from Dr. W. H. Daly, major and
chief surgeon United States volunteers,
on his staff, bearing date of September
21, 1898, wherein Dr. Daly stated that:
"In the several inspections I made
in the various camps and troopships at
Tampa, Jacksonville, Chickamauga and
Porto Rico, I found the fresh beef to be
apparently preserved with secret chemi-
cals which destroy its natural flavor and
which also believe to be detrimental to
the health of the troops."

"Although Dr. Daly swears that he
informed General Miles about the 1st of
August, 1898, that he suspected that the
refrigerated beef was chemically treated,
it does not appear that the general in-
formed the war department that an
officer of his staff had made this dis-
covery, nor does it appear that he at the
time ordered any officers under his com-
mand to probe to the bottom an allega-
tion which if true, concerned the health
of 275,000 soldiers in the United States
army."

It appears from the report of
Dr. Daly, which he handed to General
Miles Oct. 21 last, that he then specifi-
cally stated that the refrigerated beef
furnished to the troops was "apparently
chemically treated." It does not appear
that when this charge was made, Oct.
21, it having been already made to him
in August, 1898, that General Miles
communicated to you or the secretary of
war or to the commissary general, the
belief or suspicion entertained by him
that refrigerated meat, dangerous to
health, was issued every day to the
troops, in failure to do which there was
dereliction of duty. It is true that on
Sept. 20 he had directed that an order
should be issued asking for reports rela-
tive to meats issued, but the order specifi-
cally mentions "canned fresh roast
beef," and nothing else, and it was the
reports received in answer to this that
were printed in abstract by the general
at the time of his appearance before the
commission and since.

"In his report Dr. Daly does not make
the all-important statement that he had
already chemically analyzed any meat,
although he suggests that such analysis
should be made. He does state that in
the several inspections made by him at
Tampa, Jacksonville, Chickamauga and
Porto Rico he found the fresh beef to be
apparently preserved with secret chemi-
cals." He said that at Ponce the beef he
examined "was also of the same charac-
ter, being apparently preserved by in-
jected chemicals."

"For months, as it appears, Mr. Daly
concealed the commission of a crime af-
fecting men under his charge, whom, as
an officer and a physician, he was bound
to protect."

"The commission has not confined it-
self to merely verbal or written proof.
Immediately upon hearing the testi-
mony of Dr. Daly, on Jan. 20, telegrams
were sent to all issuing commissaries in
Cuba, Porto Rico and at the various
home camps occupied by troops, asking
that samples of refrigerated beef be at
once taken, placed in glass jars, securely
sealed and forwarded to the commission.
In response to this request many sam-
ples have been received and later sent to
the chemists of the agricultural and in-
terior departments for careful chemical
examination. The result of analysis
has been reported to us in 39 cases and,
as will be seen by the reports appended,
in no specimen examined has either
boric or salicylic acid or other deleterious
chemicals been found."

"In view of the facts above set forth
the commission is of the opinion that no
refrigerated beef furnished by contract-
ors and issued to the troops during the
war with Spain was subjected to or
treated with any chemicals by the con-
tractors or those in their employ."

METEOROLOGICAL

Valuable Record Kept by Wayne
County Man.

Economy, Ind., Feb. 13.—Sixty years
ago Thomas Osborne, then a resident of
this place, commenced to keep a record
of the meteorological conditions. The
record was continued by his son, Elam
Osborne, who also resides here. Three
observations were taken of the ther-
mometer each day, at morning, noon
and night, and a record made of the
mean temperature. According to this
record last Thursday was the coldest
day in the 60 years. The cold New
Years' of 1864, locally referred to as
the coldest day ever known in this part
of the country was slightly colder in the
morning than last Thursday morning,
but its mean temperature was not so
low for the day. This record antedates
by many years the government reports
and is authentic beyond question. It
furnishes a most interesting description
of many meteorological phenomena and
terrible storms and earthquakes. Strange
appearances in the heavens are described
with extreme care and minuteness.

Pensions Granted.

Washington, Feb. 13.—Pensions have
been granted to Indians as follows:
Original—Henry Warren, Anderson, \$5;
John Ungray, Mishawaka, \$10. Addi-
tional—Martin Ricker, Frankfort, \$6
to \$8. Restoration and Increase—John
H. Sharpnack, Markle, \$8 to \$12; John
C. Ryburn, (deceased), Peru, \$6 to \$12.
Restoration, Reissue and Increase—
Joshiah B. Grover, La Paz, \$6 to \$12.
Reissue—Antone Munster, Munster, \$8.
Original Widows, Etc.—Sarah Ann Car-
son, Dublin, \$12; (special Feb. 1) Re-
becca Sullivan, Bloomington, \$8; Sarah
A. Pugh, Montpelier, \$12; Sarah U.
Brown, Green's Forks, \$20.

Dropped Dead.

Limestone, Ind., Feb. 13.—Newton
Ikard, aged about 25, dropped dead hear
late Saturday. Ikard was engaged in
the saloon business in Bedford, and was
probably the largest man in Lawrence
county, weighing 325 pounds. He had
been troubled with rheumatism, which
probably caused his death by affecting
his heart.

Natural Gas Mains Break.

Peru, Ind., Feb. 13.—By a serious
break in the mains of the natural gas
company, an alarming condition con-
fronted this city last night. All day the
pressure was not above one ounce and
great suffering and distress is reported
owing to the intense cold.

SIXTEEN SKATERS

Carried Out Into Lake Michigan on
an Ice Floe.

Chicago, Feb. 13.—Sixteen skaters
living in the suburbs of Rogers' Park
and Lake Forest were carried out into
Lake Michigan on ice floes yesterday.
Ten of them were rescued and during
the entire evening searching parties
made fruitless efforts to secure some
trace of the missing six. The missing
are:

Attorney Elmer D. Brothers, employed
in the office of Attorney Luther Laflin
Mills.

Miss Orel Manney, 17 years old, niece of
Attorney Brothers.

Chauncey Manney, nephew of Attorney
Brothers.

George Mallory, student at Lake Forest
university, home in Pontiac, Ill.

Guy Carron, student at Lake Forest
university, home at St. Anne, Ill.

Arthur Fletcher, Ravenswood Park.
All of those who were rescued
were carried out on the ice off
Lake Forest and two of the number
who ventured on the frozen lake there
are supposed to have been drowned.

The remaining three of the 16 were
carried away on a floe off Rogers Park
and the Chicago life saving crew spent
all night searching for them.

\$650,000 LOSS

McClurg & Company's Bookhouse at
Chicago Burned.

Chicago, Feb. 13.—The 5-story brick
building at the northwest corner of Wa-
bash avenue and Madison street, occu-
pied by the book and stationary firm of
A. C. McClurg & Co., was with its con-
tents, totally destroyed by fire yes-
terday, entailing a loss of nearly \$650,000,
of which \$500,000 was on the stock. Mc-
Clurg & Co., carried one of the largest
stocks of rare old books and manuscripts
outside the great libraries, including
many volumes which cannot be re-
placed. All these were lost. The fire
was started by an explosion of gas which
leaked from a pipe on the third floor and
spread with amazing rapidity.

Sash, Door and Blind Pool.

Chicago, Feb. 13.—The Record's Osh-
kosh (Wis.) special says: A pool to
embrace practically all the sash, door
and blind factories in the United States
will be launched in New York on Tues-
day. Its capital will be many millions
of dollars. Oshkosh will be represented
at the meeting, and Oshkosh manufac-
turers are all in favor of the consoli-
dation. The plan of forming this pool was
originated more than a year ago.

Dreyfus in Good Health.

London, Feb. 13.—The Daily Tele-
graph publishes the following dispatch
from Cayenne, capital of French
Guiana: The judicial officer who has
just returned here from a visit to Drey-
fus on the Isle Du Diablon informs me
that the prisoner is in good health, but
declines to reply to written interroga-
tions of the court of cassation on the
ground that his answers are inaccurately
transmitted to Paris.

Insane Hospital For Criminals.

Chester, Ill., Feb. 13.—The sanitary
and engineering experts employed by
the citizens' committee to investigate
matters at the Illinois Hospital for In-
sane Criminals and make a report as to
the conditions existing there, are visit-
ing that institution. Senator A. C. Bol-
linger of Waterloo, Senator H. C. Be-
gole of Belleville, Representative A. M.
Lee of Carbondale and Representative
B. C. Brown of Springfield accompanied the
party.

MANY LIVES LOST

One of the Cottages of the
Yankton Insane Asylum
Burned.

WERE FIFTY-TWO PEOPLE

In the Building, Seventeen of Whom
Perished—Those Who Escaped Left
the Building in Their Nightclothes
and the Weather was 23 Degrees
Below Zero.

Yankton, S. D., Feb. 13.—One of the
most horrifying fires in the history of
Yankton occurred yesterday morning at
the State Insane asylum when one of
the cottages took fire in the basement
completely gutting the building and
causing the loss of lives of 17 inmates
confined there.

The cottage was erected of stone and
granite walls with wooden interior and
intended for laundry purposes, but owing
to the crowded condition of the
main building 40 of the female patients
were placed here with the laundry in
the basement. The exact cause of the
fire is not known except that it origi-
nated in the dryroom of the laundry.

The fighting of fire was greatly hin-
dered by loss of power. The burned
cottage stands some 300 feet in the rear
of the main building, the water tank
which is for fire protection standing 100
feet in the rear of the cottage. The
steam pipes used for pumping runs from
the boiler room of the main building
through the cottage for heating and
then to the artesian well or tank.

The intense heat in the burning build-
ing caused the pipes to burst shortly af-
ter the fighting of the fire began, thus
leaving them without power and depend-
ing entirely upon direct pressure from
the tank, which was in no way sufficient
to quench the fierce flames.

With the thermometer standing at 23
degrees below zero it was a heartrend-
ing sight to witness those escaping
down the narrow flight of stairs in their
night clothing and bare feet into the
bitter cold, and had it not been for the
nearness of shelter the suffering and
probable loss of life from freezing would
have been terrible.

The building was three stories high,
with an attic and two entrances, one
east and one west. There was one stair-
way from the second and third floors
which led into the main halls to these
entrances, thus giving but one egress
for those in the second and third floors
and attic.

Fifty-two persons were in the burning
building, 40 patients and 12 female at-
tendants. The attendants escaped, as did
the others who were saved, with
none of their personal effects, many los-
ing all that they possessed.

Portions of charred remains can be
seen in the debris at the bottom of the
basement, which appear to be nearly in
a pile near the northeast wall. The
work of removing the remains and
debris began this morning. The asy-
lum in 1882, then a frame building, was
destroyed and only six lives lost, except
for loss of property. It was in no sense
an instance to yesterday morning's fire.
Total loss on building and machinery is
estimated to be \$18,000. No insurance
whatever.

COLONEL COLSON

Shot by Lieutenant Scott at Anniston.
Both Belong to Fourth Kentucky.

Anniston, Ala., Feb. 13.—The trouble
that has been brewing for some time be-
tween Colonel David G. Colson and
First Lieutenant E. D. Scott of the
Fourth Kentucky regiment, culminated
at a late hour Saturday night in a
pitched battle in which Colonel Colson
was shot in the hip, and Lieutenant
Scott and many others had narrow es-
capes. The encounter occurred in the
Mammoth restaurant, conducted by
Percy Olmstead. Lieutenant Scott was
sitting at a table eating with a friend,
Lieutenant Blakeman of the same regi-
ment, when Colonel Colson entered.
He walked over near the two men at the
table, and after looking at them a
few seconds, stepped up and pulled
Lieutenant Blakeman's ear, at the same
time applying a vile epithet. Lieuten-
ant Scott declared that Lieutenant
Blakeman was his friend and he would
not allow him to be insulted. At this
Lieutenant Colson drew a pistol and
Lieutenant Scott rose from his chair
with a pistol in each hand. There were
quite a number of men in the place, and
while some say they do not know who
fired first, several declare that Colonel
Colson opened the fight. Probably a
dozen shots were fired before the as-
tounded onlookers could stop the fu-
sillade.

The bullet entered Colonel Colson's
hip and ranged around to the rear where
it was

MONDAY, FEBRUARY 13, 1899.

MEMBERS of the legislature need not get suspicious about the water works bill in which our people are interested. There is no dark scheme whatever in it.

EVEN during this very cold weather the people have not been convinced of any immediate need of a saloon on Chestnut street where Joe Hibner is now doing business. The application of John L. Crabb for a license to retail liquor there is not meeting with that hearty approval that he may have hoped for.

WE believe that we can trust to the wisdom of the city council in the matter of electric lighting, therefore we do not believe they will consider the proposition of the Wayne Engineering and Construction Company seriously without knowing what such a plant would cost if purchased outright. The plan he proposes for buying a plant seems to many to be a very expensive plan to adopt but it may not be. The people should be fully advised on this matter and we believe they will be before the council will consent to take further action.

The Water Works Bill.

EVEN yet the water works bill may be some danger before it reaches the governor for his signature, though it has had little opposition up to the present time so far as we are advised. It seems that after it had passed both the House and Senate, that Senator Hugg called it back and had it amended restricting it somewhat in its application so that it will have to go back to the House for concurrence in this amendment. The Indianapolis Journal says that the bill "is now being looked at askance by some of the members who voted for it," and that they "do not hesitate to say that there is a decided brunette concealed in the vicinity of a woodpile, and before it goes to the governor for signature it is probable that there will be an investigation into the bill." The people of Seymour have a very decided interest in this bill in which there is nothing to arouse undue suspicion.

Fire-plugs All Right.

Fire Chief Krueger has within the past day or two examined fire plugs throughout the city and finds them all right, none of them being frozen up as was feared.

LETTER LOST—Between Seymour National Bank and postoffice. Finder return to this office.

RAILROAD RUMBLINGS.

Elgin Marsh, of Seymour, is pulling local freight trains on the Louisville branch.

Conductor Thomas Kelso is running passenger trains from Louisville to North Vernon.

George L. Williams and wife, of Jeffersonville, spent Sunday with C. M. Ingram and family.

Harry Kelso, formerly of the O. & M. of Seymour, has charge of the Southern freight depot at New Orleans.

Trains on the B. & O. S-W. are finding it difficult to make time on account of long runs and frozen rails.

Charles Carpenter has charge of the B. & O. S-W. section here in place of James McDonald who was called away on business.

George E. Gibson, of Seymour, has charge of an engine on the C. & Gulf road with headquarters at Carey, Wyoming, and is doing well.

Fireman Frank Reynolds is home from Sparksville from a visit to his sick sister, Miss Effie Reynolds, who has been very low with typhoid fever. He left her better.

Samuel Hodapp, wrecking foreman and crew were last evening called to Osgood to put a pair of trucks under the tender of Thomas A. Ackley's engine 113 pulling fast branch train No. 18. No one hurt.

The Southern Indiana Railway has completed the survey from here to Greensburg, and the work of construction will no doubt begin in the spring—Westport item in North Vernon Republican.

The Southern Indiana is hauling water from Salt Creek for the two steam shovels and for the shops while the Bedford water works are shut down. Engines of trains get water at the tanks east and west of here, which are in good order notwithstanding the cold.—Bedford Mail.

Bill to Change Judicial Districts.

Representative Baker's bill, defining the Sixth, Seventh and Forty-second judicial districts will be considered in committee tonight. Judge Alspaugh of Salem, Hon. O. H. Montgomery of Seymour, Senator Shea, of Scottsburg, and a number of others from these judicial districts have been called to Indianapolis to meet with the House and Senate committees on reorganizations of courts to discuss the bill. Under this bill the Sixth district will consist Jackson, Jennings and Scott counties, the Seventh of Dearborn, Ohio and Ripley, and the Forty-second of Washington and Orange counties.

Delinquent Tax Sale.

This forenoon at 10 o'clock City Treasurer Clark and Clerk Jennings offered a few pieces of property for sale on which the taxes were delinquent. There were but five sales to make which was done bringing in an aggregate of about \$160.

MARRIED.

Sunday Mr. Fred Moening and Miss Clara Snyder, both of Washington township, were married at Sauers church, Rev. F. W. Pohlman officiating. A large number of the friends were present to witness the ceremony and extend congratulations. The newly married couple will move to Seymour, Mr. Moening having hired to Harmon Holtman for a year.

DYED DIAMONDS.

Yellow Stones Can Be Made to Look Like Gems of the First Water.

"There are tricks in every trade," has grown to be an adage, and this proverb holds especially good with regard to the jewelry trade, which for "ways that are dark and tricks that are vain" fairly takes the palm for roguery.

Although a great deal of capital, time and labor have been devoted to counterfeiting the diamond, very little success has been obtained from a fraudulent point of view, as the diamond possesses extraordinary qualities of hardness and brilliancy, with which no imitation, up to now, can attempt to vie. "Paste" of all kinds can be tested by means of a sharp steel file, which scratches its surface.

A method of successful imposition with diamonds has, however, been discovered, and the originator of this swindle actually defrauded the pawnbrokers of London alone in one year of upward of \$500,000.

The general public, as well as jewelers, are aware that diamonds of a yellowish tinge, or, as they are called in the trade, "straws," are worth very little. Large stones of this color, even when weighing from 10 to 100 carats, are quite common and will only fetch in the market from \$5 to \$30 per carat, the value, of course, increasing in ratio with weight. Diamonds of the same weight, if of the first water, or perfectly colorless, would be worth from five to ten times as much.

The methods of the individual referred to were as follows: He purchased a quantity of "yellow" stones, and then by a simple yet ingenious process succeeded in imparting to them an evanescent purity of color. This was done by procuring two ordinary glasses, a kettle of boiling water and a threepenny packet of mauve dye.

The "yellow" diamond, which was perhaps set in a gold ring or pin, was merely dipped in the glass containing the dye, and then in clean boiling water half a dozen times, and allowed to dry, when it presented all the appearance, even to the eye of an expert, of a magnificent stone of the first water.

The next move was to place the ring on the finger, and the well dressed diamond finger would saunter forth, enter a pawnbroker's and pledge the ring for at least three times its worth. Within 12 hours, however, the effects of the dye would have disappeared, and the pawnbroker could only wonder what on earth was wrong with his eyes when he advanced so much money on such a yellow stone.

Fortunately, owing to the magnitude of this individual's operations, the fraud was discovered, and now pawnbrokers, if they are suspicious of a diamond's color, immerse it in nitric acid, which destroys any dye that may be present without in any way injuring the stone.—London Mail.

GOOD MONEY FOR BAD NEWS

Paid to Learn That Sight Would Leave Him in Six Months.

Somehow it made me feel bad, this happening that I am about to relate. I was in the office of an oculist, one of the leading men in his profession in Pittsburgh. A big, strong and healthy looking man entered. His appearance indicated that he had many years of life before him. He was well dressed, keenly intelligent and of pleasant countenance.

"Doctor," he said, "my eyes have been troubling me, and I would like you to make an examination of them and treat them."

After a few preliminary questions the doctor told him to strip himself to the waist. He took off his clothes and stood there, a magnificent specimen of manhood. The doctor examined him, paying particular attention to his back, for a reason of which I know nothing.

Having finished, he said: "Put on your clothes. I can do nothing for you. Your sight may last six months, but no longer. Treatment will do no good. Blindness is sure to come."

"What's the matter, doctor?" he asked quietly, with a faint tremor in his voice.

The doctor told him in technical language and then explained that the trouble came from the wasting of a nerve leading from the spine.

"What's your bill, doctor?" asked the man when he got his clothes on.

"Five dollars," replied the doctor. He paid it and left the office without another word. In the fullness of life he walked out into the blessed light of day, doomed within six months to darkness until death. It was an incident to the doctor; to me it was a tragedy.—Pittsburgh News.

Of No Avail.

"Prisoner," said the court, "have you anything to say for yourself?"

"What's the use?" replied the culprit. "You guys wouldn't believe me."—Philadelphia North American.

Soldiers for Manila.

Three long trains of the twelfth infantry, the officers and their wives, passed east Sunday by way of the B. & O. S-W. from Jefferson Barracks, Mo., for New York from which place they will sail for Manila.

J. C. Cramer, of Bedford, came to the city today on business.

James Crowley, of Normans, formerly of Seymour, is dangerously sick of grip.

Tyre A. Todd, of Normans, came to the city today and went to court to be excused from doing jury service on account of sickness.

[LETTER TO MRS. PINKHAM NO. 94,398]

"I am so grateful to you for what Lydia E. Pinkham's Vegetable Compound has done for me that I feel as though I must tell about it. A year ago I was taken very sick. Doctors could do me no good only to deaden the pain which I had almost constantly. I got some of your Compound and took one bottle and received benefit from it at once. I have taken it ever since and now have no backache, no pain in my side and my stomach and bowels are perfectly well. I can honestly say that there is nothing like it. If I could only tell every woman how much good your medicine has done me, they would surely try it."—MARTHA M. KING, NORTH ATTLEBORO, MASS.

Women Would Surely Try Mrs. Pinkham's Medicine if They Only Knew, Says Mrs. King

The way women trifle with health shows a degree of indifference that is past understanding. Happiness and usefulness depend on physical health; so does a good disposition. Disease makes women nervous, irritable and snappish. The very effort of ailing women to be good-natured makes them nervous. Write to Mrs. Pinkham, she will help you to health and happiness. It costs nothing to get Mrs. Pinkham's advice. Her address is Lynn, Mass.

Birthday Anniversary.

The fiftieth birthday of Mrs. James Stratton was celebrated yesterday in a very pleasant way. After attending church in the forenoon as is her custom she with her family, repaired to the home of her sister, Mrs. Wm. Stratton, where dinner was served. Two tables were spread, one loaded with the good things to eat while on the other, a very handsome dining table, was displayed a beautiful decorated dinner set, both presents to the lady in whose honor the families had assembled. The surprise was complete. May she have many happy returns of the day is the wish of the writer.

CIRCUIT COURT.

The February term of the Jackson circuit court opened today, Judge A. Koehnour on the bench. Judge Alsbaugh being called to Indianapolis is rather light and the indications are for less business this term than usual. Most of the counties were present at the opening of court this morning.

Attorneys Wood, Branaman, Lewis and others went to Brownstown to attend the opening day of the Jackson circuit court.

Petit jaymen J. W. Bergdoll and J. T. Foster went to Brownstown today to report for duty.

Glorious News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved, that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expel poisons, helps digestion, builds up the strength. Only 50 cents. Sold by W. F. Peters, Druggist. Guarant eed.

Smallpox in Twenty-two States. Secretary Hurty, of the state board of health, has received reports indicating that smallpox is prevalent in twenty-two states, and that there are over 150 centres of contagion.

Three towns of Indiana, Dana, Evansville and Indianapolis, have cases. Dr. Hurty says that the prevalence of smallpox is undoubtedly due to the fact that vaccination has been neglected, not only in Indiana, but other states, for the decade.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case fails to cure. Send for circulars and testimonials.

Harper's Literary Notes.

A very important article in the current issue of Harper's Weekly is "Hawaii Under Annexation," by Hon. Sanford B. Dole, ex-President of the Republic. Ex-President Dole gives a very clear conception of the existing conditions in Hawaii, and his article should be read by every one who is interested in our new colonies.

William Dean Howells, in his week's letter to Literature, reviews "The Life of Ulysses S. Grant," by Hamlin Garland. "Among My Books" is written by Augustus Jeessop. Other features of this journal of literary criticism are; "An American Academy," "Rossetti's Afterthoughts," "The Literature of the War," Sir Walter Besant's "The Pen and the Book," by an English publisher, and "The Theatre in Portugal."

The current issue of Harper's Bazar contains a very interesting article on "The Wagnerian Dragon," by E. I. Stevenson, the well-known musical critic. Other features of the fashion column of this popular woman's paper are: "Three Paris Creations" and "New York Fashions." "Amusements in Shakespeare's Day" is another article of great interest.

DO NOT GET THE WRONG IMPRESSION

Read This Carefully.

Do not get the wrong impression of proprietary medicines. Because you have been cheated by buying them in the past, you must not think that they are all alike, for they are not. There are many preparations on the market that equal or exceed anything that physicians have prescribed. There are some, however, that are frauds, and the manufacturers should be punished for defrauding innocent purchasers. However, because you have been defrauded in the past, is no reason why you should look upon every manufacturer as dishonest. Morrow's Kid-ne-olds are purely and wholly a scientific preparation and have been severely tested. They are not some mixture or concoction of those who know nothing of drugs and their strength nor by some grandeur of nature who took a handful of this and a pinch of that and boiled it up and soaked it in whisky and called it a great cure. Morrow's Kid-ne-olds are carefully made of the purest drugs and compounds to be had. Then they are placed in small wood boxes so there is no danger of breakage in carrying or shipping. They are made into small Yellow Tablets (not pills) which make them easy to take, without stopping in the throat. They cure the worst forms of kidney disease if persistently in using the medicine is followed. We guarantee this with a money order of Fifty Dollars for a case we cannot cure, where the directions are strictly followed. We have hundreds upon hundreds of statements for publication that are given in this state alone. Those statements should inspire confidence in the most skeptical, for people do not give their names to be used at suffering humanity. "For the sake of suffering humanity," alone, Knowles of Depot and Third streets, Madison, Ind., who is a man in the Towel Manufacturing Co.'s Cooper Shop, "I am very glad to give my statement for publication, so that others may be cured of this terrible kidney complaint. Do not experiment any longer but use Morrow's Kid-ne-olds as I did. I had suffered two years with sharp, shooting pains in my back and kidneys. I had urinary disorder and was very nervous, but Kid-ne-olds cured it all."

Alpha Cox, the druggist, sells Kid-ne-olds at fifty cents a box, six boxes for \$2.50. Take no substitute. Manufactured by John Morrow & Co., Chemists, Springfield, Ohio.

THE MORE IMPORTANT

Legislation Yet to Be Acted on By State Law-makers.

TIME GROWING VALUABLE

Only About Seventeen Days More of the Session Left—Little Doubt of Senate Passing Reform Bills but They May Have a Rough Road in House—Antilynching Bill.

Indianapolis, Feb. 13.—Neither branch of the legislature had a session on Saturday, both having adjourned in order to allow the members to attend the meeting of the Lincoln League of Republican clubs at Fort Wayne.

The more important legislation of the session remains yet to be voted on and disposed of. There are but about 17 more days in which the legislature can transact its business, and none of the important bills before both houses have been disposed of. The bills prepared by the county and township reform commission were put off again last week, in order to allow the members to see the bills printed as amended, although practically all the discussion on the bills is over. In the senate there is little doubt about the passage of the bills, but the house may lay them out as it did one of the commission's bills of less importance providing for a state inspector of county records and a uniform system of book-keeping in county offices. This bill was promptly voted down and a motion to reconsider the vote was also killed, sealing the fate of the bill. The two great reform bills have been put off for weeks by both houses, but in view of the approaching end of the session, the legislature cannot procrastinate much longer.

The bill, which emanated from the fight between the state and nonstate schools in which was argued pro and con the reorganization of the state board of education, has already passed the senate and will come up in the house this week, perhaps for final disposition. The bill as passed does not change the present board except to add three members to be appointed by the governor.

The only antilynching bill which has looked upon with much favor will come up this week in the senate, though probably not in the house. This bill is a combination of the Drummond and Inman bills, and provides that the next of kin may recover from the sheriff's bondsmen, and a provision is also made for the arming of the prisoner when the mob attacks the jail.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time, I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Cough and Colds. I gave it a trial, took in all eight bottles of it. It has cured me, and Thank God I am saved and now a well and healthy woman." Trial bottles free at W. F. Peters Drug Store. Regular size 50c and \$1.00 Guaranteed or price refunded.

Does Coffee Agree With You.

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young, 15c and 25c.

Dangers of the Grip.

The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by C. W. Milhous.

An Important Question.

If your friends or neighbors are suffering from coughs, colds, sore throat, or any throat or lung disease (including consumption), ask them if they have ever used Otto's Cure. This famous German remedy is having a large sale here and is performing some wonderful cures of throat and lung diseases. No matter what other medicines have failed to do, try Otto's Cure. Large sizes 25c and 50c. Sold by all druggists.

An Honest Medicine for La Grippe

George W. Wait of South Gardiner, Me., says: "I have had the worst cough, cold chills, and grip and have taken lots of trash of no account but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one 50-cent bottle and the chills, cold and grip have all left me. I congratulate the manufacturers of an honest medicine." For sale by C. W. Milhous.

JASPER N. DAVIDSON DEAD

Was a Director of Purdue University and a Well Known Democrat.

Crawfordsville, Ind., Feb. 13.—The funeral of Hon. Jasper N. Davidson, who died Saturday at his home west of this city, occurred this morning. Mr. Davidson had been slightly ill for nearly three months, but his case was not regarded as dangerous. The cause of his death was peritonitis. He was a native of Montgomery county, born Feb. 3, 1834. Politically he was a Democrat, but he steadily believed in a protective tariff and opposed any inflation of the currency. He had been a member of the State Agricultural society and was a director of Purdue University. He was injured some time ago while returning from a meeting of the Purdue board of directors.

Gentlemen:—For years I had been suffering from indigestion. Had a poor appetite and could not eat anything containing grease and had constantly had a worn out feeling. After using three 50c bottles of Dr. Caldwell's Syrup Pepsin I am now able to eat anything my appetite craves and can say it has made a new man of me.

ELI BOWEN.
A. J. Pellen's, Druggist.

Chronic Nasal Catarrh poisons every breath that is drawn into the lungs. There is procurable from any druggist the remedy for the cure of this trouble. A small quantity of Ely's Cream Balm placed into the nostrils spreads over an inflamed and angry surface, relieving immediately the painful inflammation, cleanses, heals and cures. A cold in the head vanishes immediately. Sold by druggists or will be mailed for 50 cents by Ely Brothers, 56 Warren Street, New York.

A Common Danger.

If you ever had a cold which you permitted to "wear away" it may interest you to know it was a dangerous proceeding. Every cold and cough which is neglected paves the way for consumption, bronchitis, asthma or catarrh. Otto's Cure, the famous German throat and lung remedy, will cure any cough or cold and save you from consumption. Sold by all druggists. Prices 25c and 50c per bottle.

Drink, Grain-O.

After you have concluded that you ought not to drink coffee. It is not a medicine but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and taste like the finest grades of coffee and costs about 1/4 as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain O, the new food drink. 15c and 25c.

La Grippe is surely contagious. Dr. Miles' Restorative Nervine is a sure preventive.
